

Redcare Secure 2

Product brochure

A photograph of a smiling couple standing in front of a window with decorative glass. The woman is on the left, wearing a grey scarf and a black jacket. The man is on the right, wearing glasses, a beard, and a grey tweed jacket. A pink text box is overlaid on the bottom center of the image.

Alarm signalling protection that
can change with your needs

Redcare Secure 2

Redcare Secure 2 provides the perfect solution for low risk environments, without compromising by having both a primary and backup alarm signalling path.

Redcare Secure 2 uses mobile technology for its primary signal, with a secondary phone line signal kicking in whenever it's needed.

The Secure 2 system can be easily upgraded to Secure 3 or Secure IP at any time, so you'll always have the right protection in place, whenever you need it.

Features and benefits

- There are no additional setup costs and no extra call charges.
 - Our intelligent Roaming SIM comes as standard with Redcare Secure 2 and automatically chooses the best signal from the main UK mobile networks.
 - Redcare Secure 2 can be installed anytime with our easy network connection.
 - With a remote manager web portal, your installer can access Redcare Secure 2 for diagnostics and servicing* without interrupting your day.
-

Why choose Redcare?

Redcare sits at the heart of home and business security, bridging the gap between customers, installers and Alarm Receiving Centres. We've been in the industry for over 30 years, so you know we're a name that you can trust. Plus, we're backed by BT's trusted technology, so we're always innovating to ensure we keep your world safe and secure.
