

Ultimate

Get the highest level of security for medium-to-high risk homes and businesses with our smartest and fastest alarm signalling system yet.

What does it do?

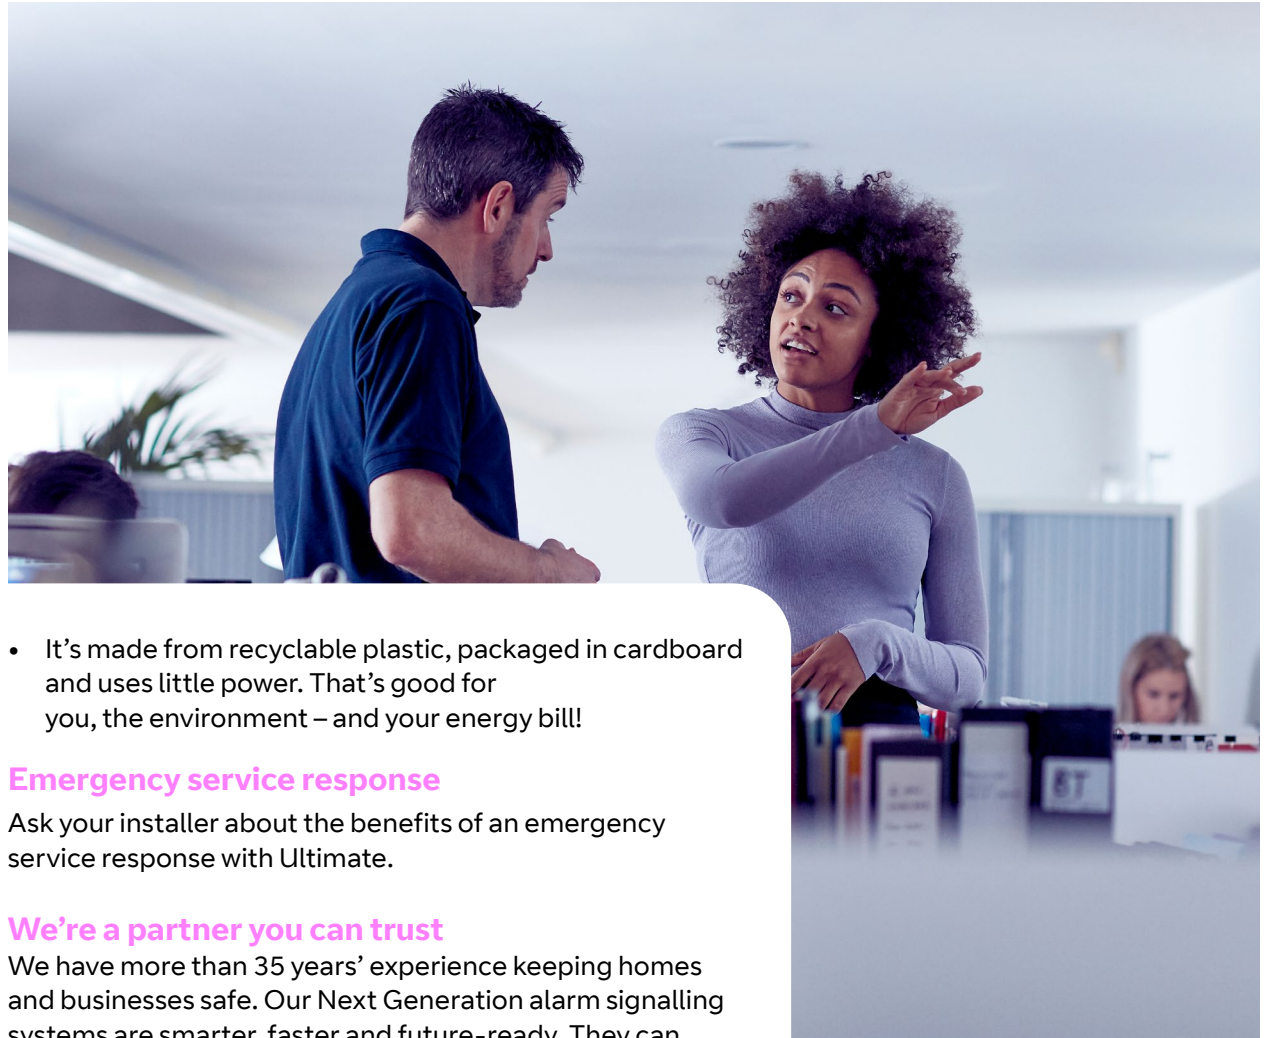

- It's monitored by experts that keep an eye on your property day and night. All year round.
- It can report connectivity issues within 90 seconds, so action can be taken quickly.
- Get a dedicated connection to our private broadband service. You don't share it with anyone else, so it never slows down. And with its own access line*, it's perfect where using your IT network for alarm signalling isn't an option.
- Better protect your property with enhanced signalling that sends more detailed information and is encrypted from end-to-end.
- Two 4G mobile SIMs act as backup to make sure you stay connected no matter what happens.
- It's harder to tamper with as its compact design fits into the alarm panel. This also means it can keep working in a power cut.
- Get mobile alerts when your alarm goes off and more with support from the BT Redcare app.

Offices Worldwide

The services described in this publication are subject to availability and may be modified from time to time. Services and equipment are provided subject to British Telecommunications plc's respective standard conditions of contract. Nothing in this publication forms any part of any contract. © British Telecommunications plc 2023. Registered office: One Braham, 1 Braham Street, London, E1 8EE. Registered in England No. 1800000.

*Ultimate is subject to location availability of the line required. Connection is only available using Openreach.

May 2023

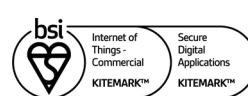

- It's made from recyclable plastic, packaged in cardboard and uses little power. That's good for you, the environment – and your energy bill!

Emergency service response

Ask your installer about the benefits of an emergency service response with Ultimate.

We're a partner you can trust

We have more than 35 years' experience keeping homes and businesses safe. Our Next Generation alarm signalling systems are smarter, faster and future-ready. They can protect you no matter what your budget is or the risks you face. Plus, each one comes with a 10-year guarantee.
