

# Essential Extra

Double up on speed and protection without doubling your costs with our wireless alarm signalling system. Making it perfect for protecting low-to-medium risk properties.

## What does it do?

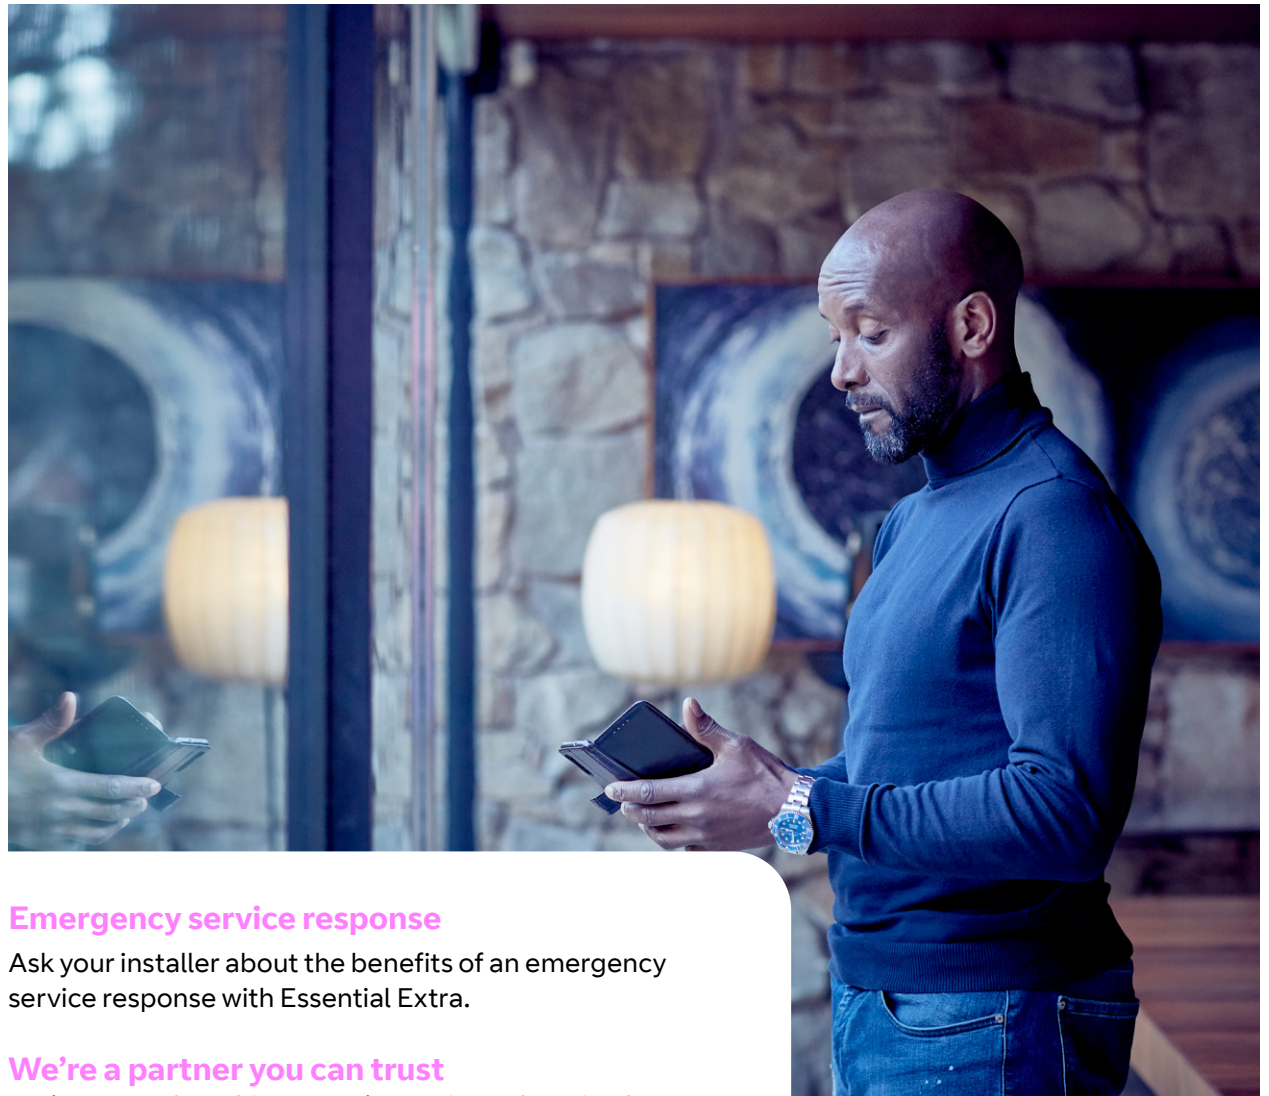

- It's monitored by experts that keep an eye on your property day and night. All year round.
- It uses superfast 4G mobile to send signals in seconds and report connectivity issues within 30 minutes.
- Stay connected no matter what happens with two fully monitored mobile connections, one that uses the UK's best mobile network\*, EE, and one which can roam onto any of the other UK networks.
- Better protect your property with enhanced signalling and end-to-end encryption at a price everyone can afford.
- Get mobile alerts when your alarm goes off and more with support for the BT Redcare app.
- It's made from recyclable plastic, comes in cardboard packaging and uses less power. That's good for you, the environment – and your energy bill!

## Offices Worldwide

The services described in this publication are subject to availability and may be modified from time to time. Services and equipment are provided subject to British Telecommunications plc's respective standard conditions of contract. Nothing in this publication forms any part of any contract. © British Telecommunications plc 2020. Registered office: 81 Newgate Street, London EC1A 7AJ. Registered in England No. 1800000.

\*EE's UK number one ranking is based on the RootMetrics® UK RootScore® Report: From 2H 2013 to 1H 2020. Tested with best commercially available smartphones on four national mobile networks across all available network types. Your experiences may vary. The RootMetrics award is not an endorsement of EE. Visit [ROOTMETRICS.CO.UK](http://ROOTMETRICS.CO.UK) for more details.
